

Honors Designations:

“HON” means Honors Only.

1. Funds need to be requested for the budget. If instructors are going to teach an honors course or honors section then they need to let Tammi know for budgeting.
2. The web enrollment will not allow a student to enroll in an HON section or course unless they are in the Honors Program or else they have to get permission from the instructor.
3. These courses are usually small discussions or seminars.
4. Honors only courses and sections offer intensive, in-depth study. All middle digit-8 courses numbered below 700 are automatically offered as Honors only.

“HOP” means Honors Optional.

1. Offered at the course level – no sections.
2. Student does not need to be in the Honors Program.
3. If they enroll in a HOP course, they will automatically get Honors credit.
4. Often Writing Intensive.
5. Small number class or seminars of 20-25.
6. 695 is always HOP.
7. Courses and sections present accelerated content, are taught at an honors level, and are open to all students.

“HIA” means Honors Available.

1. This indicator can go on a specific section of a lecture.
2. If the student enrolls at the Honors Available section and indicates he wants to take it for honors credit, he gets extra work than the others in that section.
3. It is department policy not to put HIA on large courses with many discussions like 103, 104, 106.
4. Honors Available courses or sections are "optional " - such courses have a pre-planned honors project or curriculum available. Any student can elect to pursue honors credit in an Honors Available course,. Students register on line and indicate that they will take it for honors credit. Projects are then organized between the faculty and students at the beginning of the semester. These often include longer research papers, fieldwork, or presentations given in class.

In all cases, students must achieve a grade of "B" or better to receive honors credit for a course.

To teach an HON section, this must be requested and approved in the budget request.
